

The monthly organizational update for IACRN members.

In the Loop...

June 2014

The Conference Planning Committee is proud to announce our
Keynote Speaker for IACRN's 6th Annual Conference:

Dr. David Keepnews

This conference will build on our organization's vision to enhance clinical research quality and safety through specialized nursing practice. Clinical research nursing as a specialty practice provides new opportunities for professional advocacy on behalf of our specialty, our profession, and the patients whose

lives we touch. Dr. Keepnews will discuss these opportunities in terms of economic value of nursing in the health care system and roles specialty nursing organizations play in patient advocacy.

Please visit our website at www.iacrn.org for more information on Dr. Keepnews' Keynote address and to register for the conference.
